

ALL sales calls should be stopped!! I have not answered my phone for over 2 years because I get up to 40 calls a day--not ones I want. TV and radio are as annoying as any. Also why isn't business protected? We do not have time to take a call every 20 minutes either. My business phone is also a personal phone at night and at dinner time. I get 3 caLLS EVERY NIGHT AT DINNER. I listen before I answer but the ringing is an invasion of privacy in my own home. How about protecting us instead of the telemarketers?
